Notes

- The Academy Council of Thomas Hepburn uses a portfolio system for governance, alongside the established Trust-wide Scheme of Delegation and Terms of Reference. Portfolios enhance the Council’s effectiveness in delivering the responsibilities outlined in the Terms of Reference.
- Portfolios reflect individual areas of focus, but do not imply exclusivity of responsibility: all governors have a joint and several responsibility to provide good governance across all areas of Academy business.
- The number of strategic priorities identified by the local Council will dictate the number of portfolio responsibilities. There will usually, but not always, be one portfolio remit per governor.
